

# The Window & Door Guide

# Why You Can Trust Pella

**RATED #1 BY HOMEOWNERS FOR INNOVATION<sup>1</sup>**

Our drive to improve what we do and how we do it has earned us more than 150 patents on groundbreaking innovations. Like the patent-pending Integrated Rolscreen® retractable screen that appears automatically when you open the sash of your single- or double-hung window. And the revolutionary, patent-pending Easy-Slide Operator hardware for casement and awning windows allows you to simply slide to open, without the effort of cranking.

**RATED #1 BY HOMEOWNERS FOR HIGHEST QUALITY<sup>1</sup>**

We sweat the details so you don't have to, delivering products created specifically for you. We tried to count the number of quality checks that we do in a typical hour, but we had to stop at 7,502 to get back to work. At Pella, just meeting requirements isn't enough. That's why we test beyond requirements to ensure quality windows and doors that are built to last.

Pella Reserve – Contemporary Fixed, special shape and casement windows with Saldo hardware and a Black interior.

**BACKED BY ONE OF THE STRONGEST LIMITED LIFETIME WARRANTIES**

You can feel confident in your investment. We pride ourselves on providing exceptional quality, exceeding expectations and going beyond requirements. That's why we stand behind our windows and patio doors with a limited lifetime warranty.<sup>2</sup>

# Select Your Ideal Material

## Windows and Patio Doors

**CLAD/WOOD**

Enjoy the beauty and warmth of natural wood, our most customizable designs and exceptional energy efficiency. Our innovative EnduraGuard® wood protection provides advanced protection against the effects of moisture – helping to provide years of performance.

**FIBERGLASS**

Windows and patio doors ready to handle virtually anything life throws at them. Pella's proprietary fiberglass material is the strongest material for windows and patio doors, engineered for lasting durability.<sup>2</sup> It's tested to withstand the most extreme heat and cold, damaging UV rays and conditions of seacoast environments.

The best limited lifetime warranty for wood windows and patio doors.<sup>1</sup>

**VINYL**

When you want low maintenance, energy efficiency and affordability, vinyl is the right choice. Our unique vinyl formula is tested for excellent weathering, durability and color retention. And multi-chambered frames and metal-reinforced interlocking sashes add strength.

## Pella® Entry Doors

**PREMIUM WOOD**

Whatever your home's style, we have a wood entry door to match. Each Mahogany or Rustic Walnut door is unique – just as nature intended. Customize with panel styles, decorative glass, grilles and stains.

**FIBERGLASS**

Appreciate the warm, rich look of wood or a prefinished smooth panel with the low-maintenance benefits of fiberglass. These doors have dent-resistant panels and a rot-resistant frame.

**STEEL**

Create a lasting impression with Pella's steel entry doors. They provide a quality appearance to your home that's easy to maintain, while giving you extra durability.

<sup>1</sup> Study of homeowner perceptions of leading national brands. Study commissioned by Pella, 2019.  
<sup>2</sup> See written limited warranties for complete details, including exceptions and limitations, at [pella.com/warranty](https://pella.com/warranty), or contact Pella Customer Service.

<sup>1</sup> Based on comparing written limited warranties of leading national wood window and wood patio door brands. See Pella written Limited Warranty for details, including exceptions and limitations, at [pella.com/warranty](https://pella.com/warranty), or contact Pella Customer Service at 877-473-5527.  
<sup>2</sup> Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.
